CORE COMPETENCIES

SOFT SKILLS

PAPER PUBLICATIONS

- “A Point-of-Care Aptasensor for the Real-Time Detection of Sepsis Biomarker”, Langmuir, ACS Publications (2025)
- “Topological Phases in Nanoparticle Monolayers: Why Crystalline, Hexatic, and Isotropic-Fluid Phases Coexist at the Same Temperature”, Soft Matter, Royal Society of Chemistry (2023)

TUSHAR PATHAK

Enterprise Product Leader – GenAI & Cloud

Results-driven Product Management professional with expertise in leading the strategy, development, and delivery of cloud-native, AI/GenAI, and data-driven products. Proven ability to define product vision, shape roadmaps, translate business needs into scalable solutions, and drive cross-functional execution to deliver measurable business outcomes. Skilled in balancing customer needs, technical feasibility, and business objectives to accelerate innovation, enhance operational efficiency, and create sustainable value.

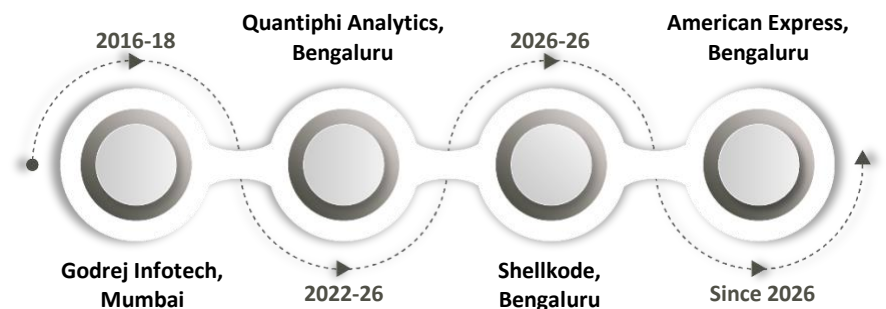

PROFILE SUMMARY

- Dynamic Product Management and Cloud & AI professional with 7+ years of experience driving the strategy, roadmap, and delivery of cloud-native, AI, and data-driven products across GCP and AWS ecosystems.
- Proven ability to translate customer needs, market insights, and business objectives into innovative product solutions through effective roadmap planning, backlog prioritization, and data-driven decision-making.
- Hands-on experience managing the end-to-end product lifecycle, partnering with engineering, data, design, and business stakeholders to deliver AI/GenAI, analytics, and cloud-based products that improve user experience and operational efficiency.
- Successfully delivered high-impact product initiatives spanning cloud modernization, data platform transformation, API-driven integrations, and AI-enabled capabilities, contributing to product adoption, business growth, and customer success.
- Skilled at balancing customer expectations, technical feasibility, and commercial priorities while driving product strategy, feature prioritization, release planning, and continuous product optimization.
- Collaborative and outcome-focused professional with experience leveraging Agile, Scrum, and SAFe methodologies to accelerate product delivery, maximize stakeholder value, and support strategic business goals.

CAREER TIMELINE

WORK EXPERIENCE

American Express (via IntraEdge), Bengaluru Senior Product Manager (Accounts Receivable)

June 2026 – Present

- Owned the product roadmap for Accounts Receivable transaction capabilities, driving the migration from the legacy *Triumph* platform to the cloud-native *MARS* microservices platform.
- Defined product requirements, prioritized the backlog, and collaborated with cross-functional teams to deliver scalable AR capabilities through Agile execution.
- Led the integration of *Devin GenAI* into the *MARS* platform to enable AI-assisted development and improve engineering productivity.

A W A R D S

Google Cloud Partner All-Star: Delivery Excellence
(2024)

Annual Unsung Hero Award, Quantiphi Analytics Solutions (2024)

12 in 11 Award, Godrej Infotech (2018)

P A T E N T

“A Low-Cost Portable Electrochemical Biosensor for Rapid Detection of Endotoxin and Method Thereof” – Granted by Government of India, Patent No. 044152784 | April 2023

T E C H N I C A L
S K I L L S

Cloud Platforms: Google Cloud Platform (GCP), Amazon Web Service (AWS)

Systems & Architecture: Legacy Monoliths, Microservices, Web Applications, Enterprise Platforms, Scalable Distributed Systems

Product Management Tools: Jira, Azure DevOps, MS Project, Trello, Asana

Collaboration & Communication: Slack, Microsoft Teams, G-Chat

Development & AI Tools: Generative AI Platforms, DBT

Databases & Analytics: BigQuery, Cloud Spanner, SQL, Looker, Excel

Agile Methodologies: Agile, Scrum, SAFe, Kanban, Sprint Planning, User Story Mapping

H O B B I E S

Key Achievements:

- ➊ Owned the migration roadmap for 35+ Accounts Receivable capabilities, prioritizing 180+ user stories across four Agile teams, reducing feature delivery cycle time by 30% and accelerating the retirement of the legacy *Triumph* platform.
- ➋ Delivered 40+ cloud-native microservices and API capabilities supporting enterprise Accounts Receivable modernization, improving platform scalability, reducing technical debt, and enabling faster feature releases across the MARS ecosystem.
- ➌ Championed the adoption of Devin GenAI within the MARS engineering ecosystem, reducing development effort by 30%, improving developer productivity by 25%, and accelerating time-to-market for enterprise Accounts Receivable capabilities.

Shellkode, Bengaluru

Technical Project Manager – AWS Division

Apr 2026 – June 2026

- ➊ Directed end-to-end program delivery from solution strategy and planning through production deployment, ensuring alignment with business objectives, KPIs, and SLA commitments.
- ➋ Established and scaled Agile delivery frameworks, integrating DevOps and CI/CD best practices to accelerate release cycles, enhance quality, and improve execution efficiency.
- ➌ Led cross-functional teams across engineering, product, and business functions, driving seamless collaboration, accountability, and on-time program execution.
- ➍ Managed executive and client engagement, providing strategic communication, risk visibility, and governance oversight throughout the project lifecycle.

Key Achievements:

- ➊ Drove organization-wide adoption of Shellkode's internal project management platform, *Pulse*, by standardizing Agile execution, reporting frameworks, and performance accountability practices.
- ➋ Strengthened enterprise delivery governance by implementing standardized user stories, acceptance criteria, documentation frameworks, and repository structures, improving project transparency, execution consistency, and stakeholder alignment.

Quantiphi Analytics Solutions Pvt. Ltd., Bengaluru

Technical Project Manager – GCP Division

Aug 2022 – Apr 2026

- ➊ Directed the end-to-end delivery of enterprise cloud-native programs spanning data engineering, API modernization, and Generative AI initiatives, ensuring alignment with business objectives and delivery milestones.
- ➋ Established program governance frameworks, defining project charters, scope, risk controls, and managing cross-functional dependencies to drive seamless execution.
- ➌ Championed the adoption of Generative AI and advanced analytics solutions to streamline workflows, enhance data platforms, and improve decision-making capabilities.

Key Achievements:

- ➊ Spearheaded large-scale database modernization initiatives, including AWS DynamoDB-to-Cloud Spanner migrations and enterprise SQL Server transformation frameworks, reducing latency and optimizing operational costs.
- ➋ Led HIPAA-compliant healthcare data migration programs, ensuring regulatory compliance, zero data loss, and secure transfer of sensitive patient information.
- ➌ Designed and delivered a GCP capability-building program, strengthening cloud expertise, accelerating adoption, and enhancing team productivity across strategic engagements.

Godrej Infotech, Mumbai

Assistant Product Manager

Sep 2016 – Dec 2018

- ➊ Directed the end-to-end product lifecycle of the Godrej *Smartnet* platform, translating business requirements into scalable product enhancements and successful feature releases.
- ➋ Partnered with business stakeholders, engineering teams, and end users to define product roadmaps, prioritize requirements, and drive execution against strategic objectives.
- ➌ Led Agile transformation initiatives by promoting Scrum best practices, improving team collaboration, delivery predictability, and development efficiency.

Key Achievements:

- ➊ Delivered 12 high-impact product features within 11 months, while improving service monitoring effectiveness by 25% and increasing team productivity by 30%.
- ➋ Institutionalized Agile delivery practices across the product portfolio, reducing project turnaround time by 20% and enhancing overall execution efficiency.
